### Boom Things.

The following card, sent out by a Detroit commercial club, is worth reading and pasting in your hat: "If there is any chance to boom business, boom it. Don't put on a long face and look as though you had a sour stomach. Hold up your head, smile and look for better things. Hide your little hammer, and try to speak well of others, no matter how small you really know yourself to be. When a stranger drops in, jolly him, tell him this is the greatest town on earth, and it is. Don't discourage him by speaking ill of your neighbors. Lead him to believe that he has at last struck a place where white people live. Don't knock. Help yourself along by becoming popular, and push your friends with you. It's dead easy. Be a good fellow, and soon you will have a procession of followers. No man ever helped himself by knocking other people down in character or business. No man ever got rich by trying to make others believe he was the only man in town who knew anything. You can't climb the ladder of success by treading on other people's corns. Keep off the corns and don't knock."

### He will be a Lawyer.

The judge of one of the Missouri county courts went to his home the other afternoon and becoming acquainted with some flagrant act of his 7-year-old son, summoned the lad before him. "Now, sir lay off your coat," he said, "I am going to give you a whipping that you will remember as long as you live." "If it pleases your honor," said the boy, "we desire to ask a stay of proceedings in this case until we can prepare to file a change of venue to mother's court. Our application will be based on the belief that this court has formed an opinion regarding the guilt of the defendant which cannot be shaken by evidence, and is therefore not competent to try the case." Stay was granted and the boy allowed twenty-five cents attorney fee.

### Summer Health And Comfort.

The season of hot weather is a trying time for most every one, particularly the faithful housewife. Upon whom depends in large measure the well-being and good nature of her family. Hot weather health and comfort is discussed, with many practical recommendations by Isabel Gordon Curtis in the July Delineator the paper being a chapter in "The Making of a Housewife." Other seasonable suggestions are given in "A Snow Ball Luncheon, Illustrated," "Milk as a Food," "Fruit Fantasies," and "New Ways of Serving Strawberries," containing the recipes for many refreshing Summer preparations. Plans for a Summer camp and housefurnishing ideas are other features of the magazine and are of particular interest for their timeliness.

### A Fine Game.

Last Sunday afternoon the Syracuse team played Versailles on the home grounds here and the "fans" were treated to the best exhibition of ball playing that has been pulled off in this city. Lewis and Fairfax were in the points for Syracuse and Cross and Padgett did the battery work for Versailles.

Syracuse went to the bat in the first and by neat work on the part of the home team they were blanked while Versailles came in and Rickard landed a safe hit, when good stick work by Troutwine and Lutman brought in the first score.

In the second neither team succeeded in scoring, both pitchers doing good work in the box, a fine catch by Troutwine retiring the visitors when it looked like they were certain to score.

In the third inning Syracuse rallied and succeeded in putting four men over the plate, but Versailles went them two better by pounding Lewis for six clean scores. Then some good infield work by both teams furnished the "fan" with two settings of goose-eggs. In the fifth Cross, who was doing nice work in the box, served up a mess of 00 for the visitors. Versailles then came in and landed on Lewis for four more tallies.

Syracuse, by neat work in the sixth succeeded in landing one man over the plate, and then blanked the home team.

In the seventh Troutwine made a running fly catch in left center and doubled to Rickard at first, furnishing the visitors with another 0. Versailles handled the stick well and pushed two over the plate. The eighth was a quick one, downed of the home team, caught a hot liner at second and doubled to Rickard at first, while Cross silenced the visitor with the stick. The ninth and last chance for the visitors gave them one more run, leaving the score 13 to 7 in favor of Versailles, as follows:

Verailles—1 0 6 0 4 0 2 0 8—33  
Syracuse—0 0 4 0 1 1 0 0 1—7

Cross struck out eight men while Lewis for the visitors fanned six. Prof. J. M. Stith umpired the game and his decisions and fine control of the game was one of the most pleasing features.

The game was a clean one not an incident coming up to mar the pleasure of the large crowd who witnessed it. The Syracuse boys are an agreeable aggregation of ball players and at times put up a fast game. With a little field practice they will make any competitors play to earn the game. The home team show that they are profiting by practice and with each game they show decided improvement, while the attendance proves that lovers of the sport here are willing to encourage the boys so long as the game is kept clean.
